NEWS UPDATES:

STATEWIDE YARD WASTE DISPOSAL BAN TEMPORARILY LIFTED IN STORM'S AFTERMATH

- Due to the many downed trees and fallen limbs statewide caused by Hurricane Irene, DNREC has given temporary approval allowing Delaware residents to dispose of storm-related yard waste along with their household trash through Tuesday, September 6. The statewide yard waste ban that went into effect earlier this year has been rescinded for eight days to help residents clean up their property after the storm. Delawareans are still encouraged to keep their yard waste separated from their household trash and to take it to a DSWA facility, yard waste drop-off site, or to a private company that accepts yard waste in order to preserve land fill space and to provide valuable material to the mulch and composting industries. However, as part of a vigorous effort to clean up the state quickly from Hurricane Irene, residents may put yard waste in with their household trash for disposal until Sept. 6. (Please note that residents who live in municipalities that already have a separate yard waste collection program should continue to use that service rather than put their storm debris in with their household trash. Also, DNREC's yard waste drop-off sites in New Castle County, the Polly Hill Drummond site and DART Mid-County site, will be open every day this week.) BROWNFIELDS DEVELOPMENT PROGRAM – The Division's Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties which may be contaminated. A party seeking to develop such a property negotiates with the Division's Site Investigation and Restoration Section (SIRS) for a Brownfields Development Agreement (BDA) or a Brownfields Voluntary Cleanup Program (VCP) Agreement to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. For site-specific information on the following sites, please see SIRS's superfund site files database at: <http://docs.dnrec.delaware.gov/sirbsitefiles.cfm>.

FINAL PLAN OF REMEDIAL ACTION FOR THE HARRY WOOD LANDFILL (OU-1)

DE-1493 - The Site Investigation has adopted a plan to clean up the Harry Wood Landfill Operable Unit 1 (OU-1) site in New Castle. The 13.91 acre site is a wooded to open lot that is adjacent to a former landfill used by several local chemical plants. OU-1 was not used as a dump but is part of the same parcel as the landfill. The site does not pose an unacceptable risk for the proposed church facility (residential) redevelopment. Coordination with the Voluntary Cleanup Program work being performed adjacent to the redevelopment will occur. No other remedial actions will be required for the site. The public may appeal this final plan by August 30, 2011. For additional information, please contact Todd Keyser or Robert Newsome at (302) 395-2600 or visit:

FINAL PLAN OF REMEDIAL ACTION FOR THE CHRYSLER NEWARK ASSEMBLY PLANT SITE (OU-1) (DE-0105)

- The Site Investigation and Restoration Section (SIRS) has adopted a plan regarding the clean-up of Operable Unit 1 of the Chrysler Newark Assembly Plant Site located in Newark. The Site is owned by 1743 Holdings, LLC, a wholly-owned subsidiary of the University of Delaware. The Site is being redeveloped as the future location of the University of Delaware's Science and Technology Campus. The Final Plan for OU-1 requires: 1. Recording of an Environmental Covenant on the property deed. The Covenant will a) prohibit the installation and use of groundwater wells for drinking water purposes without the prior written approval of DNREC, b) identify the Site as located within a Groundwater Management Zone, and c) restrict the property to non-residential use, 2. Development and implementation of a DNREC-approved Long Term Stewardship (LTS) Plan. The LTS Plan will detail the groundwater monitoring network and schedule to be followed in order to monitor the attenuation of the groundwater COCs, and 3. Development and implementation of a Contaminated Materials Management Plan (CMMP) to ensure that contaminated materials encountered during intrusive activities are handled properly. The public may appeal this final plan until September 3, 2011. For additional information, please contact Lindsay Hall, Wendy March or Robert Newsome at (302) 395-2600 or visit:

FINAL PLAN OF REMEDIAL ACTION FOR THE CHRYSLER NEWARK ASSEMBLY PLANT SITE (OU-8) (DE-0105)

- The Site Investigation and Restoration Section (SIRS) has adopted a plan regarding the clean-up of Operable Unit 8 of the Chrysler Newark Assembly Plant Site located in Newark. The Site is owned by 1743 Holdings, LLC, a

wholly-owned subsidiary of the University of Delaware. The Site is being redeveloped as the future location of the University of Delaware's Science and Technology Campus. The Final Plan for OU-8 requires: 1. Recording of an environmental covenant on the property deed. The covenant will: a) prohibit the installation of groundwater wells for drinking water purposes without the prior written approval of DNREC and b) identify the Site as located within a Groundwater Management Zone, 2. Development and implementation of a DNREC-approved Long-Term Stewardship (LTS) Plan. The LTS Plan will detail the groundwater monitoring network and schedule to be followed in order to monitor the attenuation of the groundwater COCs and, 3. Development and implementation of a Contaminated Materials Management Plan (CMMP) to ensure that contaminated materials encountered during intrusive activities are handled properly. The public may appeal this final plan until September 3, 2011. For additional information, please contact Lindsay Hall, Wendy March or Robert Newsome at (302) 395-2600 or visit:

FINAL PLAN OF REMEDIAL ACTION FOR THE GROWMARK FS MILFORD SITE

(DE-1326) - The Site Investigation and Restoration Section (SIRS) has adopted a plan to clean up the Growmark FS Milford Site located at 308 and 508 Northeast Street in Milford. The approximately 9-acre property has offices and a warehouse. Groundwater at the Site is impacted by methyl tertiary butyl ether (MTBE), ethylbenzene, xylenes, naphthalene and 2-methylnaphthalene, and nitrate nitrogen. However, numerous groundwater sampling events have demonstrated that contamination is not leaving the site. The final cleanup will be to restrict groundwater use at the Site. The restriction will be removed after the groundwater at the site is determined not to be a health risk. The public may appeal this final plan until September 3, 2011. PROPOSED PLAN OF REMEDIAL ACTION FOR THE ICI AMERICAS INC. ATLAS POINT SITE (DE-0049) OPERABLE UNIT 1

- The Site Investigation and Restoration Section (SIRS) invites public comment on a proposal to clean up the ICI Americas Inc. Atlas Point Site at 315 Cherry Lane in New Castle. The 177-acre Site is an active chemical production facility predominately owned by Croda Inc., Fuji Film, Arch Chemicals, and BoiMed Realty own smaller parcels of the site. The site soil and sediment has been contaminated with substances related to chemical production activities, accidental releases and run-off. The proposed cleanup includes removing or capping contaminated soil and sediment with the goal of making the site suitable for continued industrial use. The comment period ends on September 12, 2011. For additional information, please contact Stephen F. Johnson or Robert Newsome at (302) 395-2600 or visit:

PROPOSED PLAN OF REMEDIAL ACTION FOR THE MIDDLETOWN MANOR SITE

DE-1483 - The Site Investigation and Restoration Section (SIRS) invites public comment on a proposal to clean up the Middletown Manor (17 Wood Street) site in Middletown. The 1.88 acre site is currently not in use but has several buildings that had been used historically as a lumber yard and material storage. SIRS requires that three distinctive areas of impacted soil be excavated and disposed of properly to remediate the site. Once these actions have been completed the site will achieve unrestricted use status. No other remedial actions will be required for the site. The comment period ends on September 12, 2011. For additional information, please contact Todd Keyser or Robert Newsome at (302) 395-2600 or visit:
